

### DESIGN AND BUILD

THE LEADING AUSTRALASIAN COMPANY FOR  
CRUSHING, SCREENING, MATERIAL HANDLING &  
FINES PROCESSING PLANT & EQUIPMENT

- Specialist in-house design team
- Full CAD & 3D modeling
- Complete manufacturing facility
- High quality preparation and painting capability
- Supplying Equipment throughout Australasia, Oceania and South East Asia

### SCREENS

#### STANDARD SCREENING SOLUTIONS

- Medium duty, heavy duty, extra heavy duty
- Standard & optional features
- Scalping screens
- Custom screens, designed for individual requirements

### FEEDERS

#### MATERIAL DELIVERY SOLUTIONS

- Plate, grizzly & belt feeders
- Eccentric shaft, twin vibrating motors
- Custom screens & feeders, designed for individual requirements

### APRON FEEDERS

#### HEAVY DUTY PRIMARY FEEDER

- D4, D6 & D9 Models
- Heavy Duty Cast Pans
- Electric or Hydraulic Motor Drive
- 200 - 10,000 tonnes per hour
- Feed size up to 2000mm
- Dribble Conveyor Option

### PUGMILLS

#### CONTINUOUS MIXING PLANT

- Mixing Capacities up to 1000 TPH
- Rubberlined opening Walls and Floor
- Relocatable Plant Options
- Reversible Ni Hard Paddles
- Complete Turn-key Solutions

## WARRIOR

### WHEEL AND UNDERBODY TRUCK WASH

- ❑ Complete drive-through wheel and underbody wash
- ❑ Heavy duty galvanised structure
- ❑ Fully automated
- ❑ Suitable for all road-going vehicles
- ❑ Strategically directed nozzles
- ❑ Portable lease options available

## PORTABLES

### PORTABLE CRUSHING AND SCREENING PLANT

- Mobile Units ❑
- Customised for individual sites ❑
- Crushers, screens and feeders ❑

## HAMMERKING

### IMPACT CRUSHER

- ❑ The Rocktec Hammerking impact crusher is an economical secondary/tertiary crusher which manufactures a well graded cubical product for a wide range of industries. The Hammerking is a simple machine to operate and maintain - all parts are easily accessed and changed when worn.

## REDI-WASH

### CONCRETE TRUCK WASHOUT SYSTEM

- Cement residue reclaimed ❑
- Reclaims all sand & aggregate ❑
- Eliminates grey water ❑
- Prevents yard water run-off to storm water ❑

## HURRICANE

### CONCRETE BREAKER

- Simple to operate, minimal operator training ❑
- Compact design, easy hook-up ❑
- Low maintenance, low cost breaking ❑
- Fits to skidsteers, excavators and backhoes ❑
